

Let's get busy and make a jellyfish

Materials

- Paper plates
- Tissue paper
- Googly eyes
- Colouring pens
- Scissors
- Glue

Instructions

1. Cut a paper plate in half to create a semi circle.
2. Then cut your tissue paper into long strips – these will become the tentacles of your jellyfish!
3. Stick your tentacles onto the straight part of the semi circle.
4. Now time to decorate! Use your googly eyes and colouring pens to give your jellyfish its own face and character.
5. Finally, it's time to name your new jellyfish friend and play!
